HOYLU HUDDLEWALL SYSTEM RECOMMENDATIONS

Recommended PC

- A computer built to your content specifications is necessary for an optimal system. The following guidelines will be suitable for most installations. If you are building an exceptionally large or complex system please contact us for guidance.
- Windows 7 64-bit Home Premium or better (Home Basic not supported), Windows 8.1 64-bit or Windows 10 64-bit.
- 8 GB of RAM.
- Intel Core i5 Processor or better.
- 25 GB of hard drive space available.
- A supported NVIDIA graphics card.
- A separate x16 PCI express slot for each NVIDIA graphics card (running at full x16 bandwidth).
- Quadro sync card if using multiple graphics cards.
- For systems with multiple graphics cards contact us for recommended workstations.
